WHO/TDR International Postgraduate Scholarship for Master of Public Health
Call for Applications for Academic Year 2018-2019

Published on June 22, 2017

The James P. Grant School of Public Health (JPGSPH) at BRAC University in Dhaka, Bangladeshis accepting applications for WHO TDR International Post Graduate Training Scheme (TIPS) for its 14th batch of Master of Public Health (MPH) Programme beginning in January 2018.Taught in English, the MPH Programme is a 12-month full-time programme which promotes problem-based experiential learning.

The scheme, which is managed by TDR, the Special Programme for Research and Training in Tropical Diseases based at the World Health Organization in Geneva, Switzerland, provides full scholarship. Candidates from low- and middle-income countries (LMICs) of WHO South-East Asia (http://www.searo.who.int/about/en/) and West Pacific (http://www.wpro.who.int/countries/en/) regions are eligible to apply.

The training will focus on courses relevant to a career in implementation research. Implementation research is a growing field that supports the identification of health system bottlenecks and approaches to address them, and is particularly useful in low- and middle- income countries (LMICs) where many health interventions do not research those bottlenecks that impede success. The goal of this scheme is to enhance graduate training capacity and boost the number and quality of researchers in LMICs. Further information on implementation research is available at www.who.int/tdr/publications/topics/ir-toolkit/en/.

Scholarship Recipients will be enrolled as postgraduate students, and will require undertaking a Summative Learning Project (SLP) on neglected tropical diseases. The career of fellows will be tracked in the new TDR Global alumni and stakeholder platformwhich provides ongoing monitoring of the impact of the programme as well as networking and increased visibility opportunities for students.

Eligibility for the Scholarship

- ☐ Nationals/Residents from low- and middle income countries (data.worldbank.org/about/country-and-lending-groups) of WHO South-East Asia and West Pacific regions.
